

QUARRY ACTION

MEETING

SAVING GILLIES HILL
PRESERVING OUR HERITAGE
MAINTAINING SAFE ROADS
ENFORCING PLANNING LEGISLATION

Wednesday 28 March 2007 7.30 pm

Cambusbarron Community Centre

Bring your friends and your ideas

Take Action!

Over 120 people crammed into the village hall for the Cambusbarron Community Council on the 20th March 2007.

It unanimously mandated the Community Council to stop more destruction of the environment that is threatened by Murrayshall Quarry proposals at Gillies Hill.

The meeting called for every household in the area to write a letter to the press, or their MSP, or their Councillor to demand that the authorities stop destruction of the environment.

Gillies Hill is a national asset - it must not be destroyed.

You can write to:

The Editor, Stirling Observer, 40 Upper Craigs, Stirling, Stirlingshire FK8 2DW
The Editor, Scotland on Sunday, Barclay House, 108 Holyrood Road, Edinburgh EH8 8AS
Your MSP, The Scottish Parliament, Edinburgh EH99 1SP
Your Councillor, Stirling Council, Viewforth, Stirling, FK8 2ET

The meeting called for *ACTION*:-

The Murrayshall Quarry Liaison Group has not had unequivocal answers from Stirling Council on the local concerns:

Have the current proposals for quarrying stretched beyond those permitted by the 1980 /1982 planning consent?

Have the 1980/1982 planning conditions been changed by the 2002 review made by Stirling Council without consultation with the community council?

Previous planning conditions ref S/80/116 state at Condition 3:-

"The Developer shall ensure that, throughout the period of extraction, the quarry operations do not create a nuisance to the community or the environment..."

**How would the current Murrayshall Quarry proposals safeguard the environment?
Where is the enforcement to prevent creation of a nuisance for the community?**

Residents are protesting that action is required to save Gillies Hill and preserve our heritage. The Community Council has arranged a Quarry Action meeting for 28th March – all are welcome!
